

Eco Drama

Eco Drama creates inventive theatre and creative learning projects that strive to embed sustainability and ecology at the heart of the experience. Through theatre, music, storytelling and creative learning, the company are passionate about making work for children, young people, families and the wider community which encourages greater awareness of nature and reminds us we are part of an amazing living planet.

They achieve this by:

- Delivering theatre productions, workshops and projects in schools, nurseries, theatres, festivals and community venues across Scotland.
- Working in the heart of communities, in partnership with other arts, community and environmental organisations.
- Involve children and young people in the development of their productions and projects to enhance the experience
- Touring to schools and venues in an electric car and a van run on recycled vegetable oil, reducing CO2 emissions by 85%.
